Miniatures #1

Miniatures - Series 1

Pattern tips and notes for you...

- These designs have been created to use with Dandelyne miniature hoops, only 2.2 inch round
- Be sure to read over all the instructions before stitching.
- Your sewing machine is not required to complete this design.
- Take your time, don't rush! Keep your stitching small to accentuate the detail in the design.
- Have fun x

Making the miniature

1. Transfer the stitchery design to the centre of one 6 inch linen square, the circle around the design should also be transferred onto your fabric however the circle is a cutting line NOT a stitching line.

2. Fuse Vilene H410 to the back of the linen and complete the stitching using the thread guide enclosed.
3. Once the stitching is complete press well and cut along the circle line as shown here.

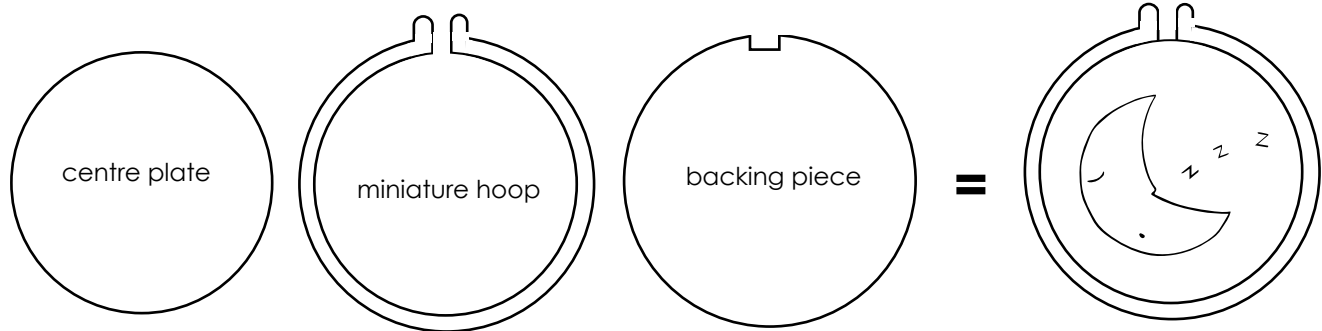

4. Using thread and a running stitch hand sew 1/4 inch in from the edge of the fabric circle (shown as a dotted line in the diagram above).

Sew around the entire circle but do not tie off your thread just yet!

5. Place the fabric circle over the centre plate and pull the thread firmly being careful not to break it. The fabric circle will gather and tighten around the centre plate, knot well to secure.
6. Place the centre plate inside the miniature hoop and tighten the screw **{do not over tighten}**
7. Flip over your miniature hoop, place super strong glue around the back side inner edge and along the inner edge of the backing piece. Position on the back of your hoop with the notch top and centre.
8. Leave glue to dry as per manufactures instruction, if necessary clamp to hold with clothes pegs.
9. Wear and admire your amazing work..... it's miniature awesome, indeed!
