Princess & the Pea

Princess and the Pea miniature

Miniatures.... the best things come in small packages, especially embroidered ones.

Pattern tips and notes for you...

- Be sure to read over all the instructions before stitching.
- Your sewing machine is not required to complete this design {Oh yeah!!!}
- Most stitching is completed with two strands of Cosmo embroidery thread, unless advised.
- Take your time, don't rush! Keep your stitching small to accentuate the detail in your work.
- Enjoy hand stitching, it really is a perfect way to relax after a busy day x

Transfer the stitching design to fabric

The first step is to transfer the stitching design to your fabric by hand tracing with a super fine pen.

Please note: The circle around the design should also be drawn onto your fabric but you are not required to stitch around it.

Once the embroidery is completed this will be your cutting line to place into your miniature hoop.

Running stitch
around fabric edge
{details over page}

Princess and the Pea miniature

COSMO thread and stitch guide

Description	thread	stitch
Bed frame & legs	897	back stitch
Pea	324	satin stitch

stripe on dress hem	897	satin stitch
mattresses {in order of layers}:		
navy	255	back stitch
pink	114	"
red	800	"
yellow	702	"

Stitching tip: Using an embroidery frame or hoop will tension your fabric for perfect stitching!

1. Once your stitching is complete press well with a dry iron.
2. Cut out the design along the circle marked.
3. Using cotton thread and a running stitch hand sew 1/4 inch in from the edge of the fabric circle, sew around the entire circle, do not tie off your thread.
4. Place the fabric circle over the centre plate and pull the thread firmly being careful not to break the thread. The fabric circle will gather and tighten around the centre plate, knot well to secure.
5. Place the centre plate inside the miniature hoop and tighten the screw **{do not over tighten!}**.
6. Flip over your miniature hoop, place super strong glue around the back side inner edge and along the inner edge of the backing piece. Position on the back of your hoop with the notch top and centre.
7. Leave glue to dry as per manufactures instruction, if necessary clamp to hold with clothes pegs.
8. Wear and admire your amazing work..... it's miniature awesome, indeed!
